

LEKAN OLUWASEUN OKELOLA

Nigeria | okelolalekan2019@gmail.com | github.com/lasmor2

PROFESSIONAL SUMMARY

Results-oriented **Full-Stack Developer** with hands-on experience designing, building, deploying, and scaling production-ready web applications. Expert in modern frameworks like **Next.js** and **React**, with additional proficiency in **Python** and **FastAPI** for building high-performance backends. Known for a "founder mentality"—taking ownership of fuzzy requirements and transforming them into high-quality, reliable software solutions.

TECHNICAL SKILLS

Frontend: Next.js, React, React Native, Tailwind CSS, shadcn/ui, GSAP, Three.js

Backend & API: Python, FastAPI, NestJS, REST APIs, Clean Architecture

DevOps & Cloud: Docker, AWS, GCP, Modern DevOps Workflows, CI/CD

Languages & DB: JavaScript (ES6+), Python, SQL, HTML, CSS

PROFESSIONAL EXPERIENCE

Full-Stack Developer

- **End-to-End Ownership:** Own the entire software lifecycle, from initial system design using Next.js and Python to deployment and production scaling.
- **Technical Judgment:** Balance rapid feature delivery with long-term system health, utilizing clean architecture principles and FastAPI to build resilient, high-performance backends.
- **Problem Solving:** Specialized in navigating loosely defined requirements to build robust, performance-oriented systems using SQL for efficient data management.
- **Full-Stack Execution:** Hands-on experience building interactive interfaces with React/Next.js while managing complex backend logic and infrastructure via Docker, AWS, and GCP.

PROJECTS

Production Web Applications

- Designed and deployed scalable web solutions using Next.js and NestJS, ensuring high reliability and performance.
- Implemented modern DevOps workflows, utilizing Docker for containerization and AWS/GCP for cloud infrastructure management.
- Enhanced user engagement by integrating advanced frontend technologies including GSAP and Three.js for interactive experiences.

PHILOSOPHY & APPROACH

- **Continuous Learning:** Driven by a strong bias toward learning by doing and maintaining technical excellence in fast-paced environments.
- **Quality Focused:** Committed to building resilient systems and maintaining high standards through testing, code reviews, and performance optimization.
